DETAILED ACTION

1. Receipt is acknowledged of the amendment filed 10/19/2005.
2. Claims 1, 4, 6-10, 12-13, 24-42 are pending, and Claims 2-3, 5, 11, 14-23 have been cancelled.
3. The indicated allowability of claims 7-11 and 24-42 is withdrawn in view of the newly discovered reference(s) to Shipizel (US 6,604,843 B2). Rejections based on the newly cited reference(s) follow.

Drawings

4. The drawings are objected to under 37 CFR 1.83(a). The drawings must show every feature of the invention specified in the claims. Therefore, the optical axis, the focal lengths l_1 , l_2 , the distance d_1 , d_2 *must* be shown or the feature(s) canceled from the claim(s). No new matter should be entered.

Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet"

pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Double Patenting

5. The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

6. Claims 1,4, 6-10, 12-13, and 24-42 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claim 1-22 of U.S. Patent No. 6,604,843 B2. Although the conflicting claims are not identical, they are not patentably distinct from each other because although the reference to Shipizel does not disclose the diameter size of the collecting lens, it would have been obvious to one having ordinary skill in the art at the time the invention was made to adjust the diameter size of the collecting lens in order to control the beam size of light emitting through the collecting lens.
